

Instructions for completing the CASA Litter Registration form.

1. **The completed form and proof of payment must be sent as attachments to ONE e-mail or in ONE fax or together in one envelope to the postal address.** Please do not send the form before payment has been effected. Please send the form as one document. Do not save or scan the separate pages as separate documents. Cash payment/deposit should include an additional minimum of 10% commission, as the club is charged for cash deposits by the banks. Applications received without the properly completed form and proof of payment in the same e-mail, will not be processed.
2. Check the www.casawcf.com website on every occasion before sending an application form, to ensure that the most up to date form is used.
3. Only the entire litter may be registered at once, according to WCF rules. If some owners are still outstanding, please indicate on the form where the owner name should be "Do not print, will be supplied later" The registration will be done, but not printed and posted until such time that the owner name is supplied. Kittens can also be registered in the breeder's name at the higher price, which includes one free transfer later. Registrations will then be printed and sent to the breeder. One free transfer will be effected free of charge when requested by the breeder.
4. Please do not request that the registrations should be sent to the new owner directly, this causes confusion. The breeder should check the registrations first and then ensure that it gets to the new owner.
5. Corrections due to errors on the form will be done at a fee of R50 per registration.
6. Transfers can only be done on written request and the request must be in an e-mail, containing all the details, or on an attached transfer form. The request must come from the current registered owner of the cat. Proof of payment must be attached to the same e-mail.
7. Postage to South African addresses are free of charge, but additional postage must be added, if registrations are to be sent overseas. Overseas applications can only be paid by direct deposit in South African Rands in the bank account or via PayPal.
8. Please do not alter anything on the application form. Altered forms will not be processed.
9. Please ensure that every section is completed. We MUST have at least one telephone number, a full postal address, with postal code AND an e-mail address for the new owner. It is extremely unlikely that a new owner will not have an e-mail address nowadays. Please do not use only capital letters, follow the format as requested on the form.
10. If it is impossible to add the signature of the stud owner to an electronic document (if not owned by the breeder), an e-mail from the stud owner confirming the mating is acceptable.
11. Pedigrees/registrations of parents only need to be sent once, at the time of first registering offspring. The information will then be on the database for future registration. Please send clear copies from a scanner, or fax. Please do not send low resolution, cell phone photos of documents. This leads to errors while capturing the data.
12. Please note that the registration- and show databases are separate entities. A cat that was entered in a CASA or Independent show will not automatically appear on the registration database, unless it has a CASA registration number.
