

Instructions for completing the CASA Litter Registration form. 2022

1. **The completed form and proof of payment must be sent as attachments to ONE e-mail or in ONE fax or together in one envelope to the postal address. Only one litter and the payment for that litter only per e-mail.** Please do not send the form before payment has been done. Please send the form as one document. Do not save or scan the separate pages as separate documents. Cash payment/deposit should include an additional minimum of 10% commission, as the club is charged for cash deposits by the banks. Applications received without the properly completed form and proof of payment in the same e-mail, will not be processed. Proof of payment must be attached to the application e-mail. Do not send it from the bank's website. A proof of payment received directly from a bank is discarded. Cell phone photographs of documents are not acceptable. Word format is preferred, but scanned forms in PDF format is also acceptable. Use a camera scanner, or conventional scanner for forms completed by hand and send in PDF format. No other format is accepted.
2. Check the www.casawcf.com website on every occasion before sending an application form, to ensure that the most up to date form is used. Applications on older forms will not be processed.
3. Only the entire litter may be registered at once, according to WCF rules. If some owners are still outstanding, please indicate on the form where the owner's name should be "Do not print, will be supplied later". If no name is available for the kitten yet, write "No name yet". The registration will be done without a registered owner and/or name and sent in electronic format to the breeder, but not printed and posted until such time that the owner's and/or kitten's name is supplied. Transfer to the new owner is done on completion of the special application form for this purpose and is free of charge. Kittens registered in the breeder's name and transferred later on the standard transfer application form will incur the standard transfer fee.
4. Please do not request that the registrations should be sent to the new owner directly, this causes confusion. The breeder should check the registrations first and then ensure that it gets to the new owner. Collection, courier delivery, etc. are not offered – only postage via SA Post Office. International post is sent via registered mail, at the relevant extra fee of 10 Euro.
5. Due to the unreliable postal service, a scanned copy of registration documents will be sent to the breeder before posting. This service is included in the registration fee.
6. Corrections due to errors or omissions on this form will be done at a fee of R50 per registration.
7. Transfers can only be done on written request and the request must be in an e-mail, containing all the details, or on an attached transfer form. The request must come from the current registered owner of the cat. Proof of payment must be attached to the same e-mail.
8. Postage to South African addresses is free of charge, but additional postage must be added, if registrations are to be sent overseas. Overseas applications may only be paid by via PayPal in Euro. See the website for the latest prices.
9. Please do not alter anything on the application form. Altered forms will not be processed.
10. Please ensure that every section is completed. We MUST have at least one telephone number, a full postal address, with postal code AND an e-mail address for the breeder and new owner. It is extremely unlikely that a new owner will not have an e-mail address nowadays. Please do not use only capital letters, follow the format as requested on the form. If a postal code, telephone number or e-mail address is not provided, the registration document will state: "Not provided". This does not look good on a formal document.
11. If it is impossible to add the signature of the stud owner to an electronic document (if not owned by the breeder), an e-mail from the stud owner confirming the mating is acceptable.
12. Pedigrees/registrations of parents only need to be sent once, at the time of first registering offspring. The information will then be on the database for future registration. Please send clear copies from a scanner, or fax. Please do not send low resolution, cell phone photos of documents. This leads to errors while capturing the data.
13. Please note that the registration- and show databases are separate entities. A cat that was entered in a CASA or Independent show will not automatically appear on the registration database, unless it has a CASA registration number.
14. From 01 10 2018 no duplicate names, with I, II, etc. added will be accepted, as it causes confusion on the database. Please check that you do not request registration of a name already registered previously. If not sure, please enquire about the availability of the name via e-mail BEFORE sending in the registration application.
